Computer Science (A), Physics (A), Mathematics (A), English Literature (A), Biology (A), English Language (B), Chemistry (B)

Gateway College Rajagiriya

2012- 2017

- Diploma in English Spoken, Comprehension and Literature: Distinction.

PROJECT EXPERIENCE

AI Tele Doctor Application: Developed an AI-integrated mobile app using Android Studio, Figma, and Firebase to facilitate effective communication between patients and doctors. Implemented features for file sharing, appointment booking, and virtual consultations.

Sign Language Translator: Designed and built a translator app using Android Studio, Figma, and Firebase to bridge communication gaps between hearing impaired and hearing individuals. Enabled real-time translation of sign language gestures into text and vice versa.

ICC Cricket Tournament Database: Created a Linux-based database for ICC cricket tournaments using MySQL, organizing and storing relevant data for easy access and management.

Linux Terminal Calendar App: Engineered a Linux terminal-based calendar app with event display, addition, search, and navigation functionalities using Python scripts executed via Jython.

Food Order Mobile App: Designed a prototype food ordering app for Android devices, enabling users to place and track orders seamlessly through intuitive interfaces.

- The above Projects can be seen in my Personal Website link : <https://kathirsub.netlify.app/>

WORK EXPERIENCE

Pinescript Code Indicator Developer | Fiver

2021 - PRESENT

- Online freelancing profile on Fiverr, where I've earned 100% positive feedback: Kainemesis on Fiverr

TECHNICAL SKILLS

- Programming Languages:** Java, JavaScript, C, C#, Python, Pascal, MYSQL, HTML, CSS, Pinescript
